STAGE

***Please use the space provided above to create a detailed drawing of your booth/tent

layout. You should draw it like you are standing in front of your booth looking into the tent.

Please pay attention to the directional cue we have labeled (i.e. Stage). Designate with

words front & back. If you do not specify above, or if it is insufficient or unclear, the tent

will set it up front and center of your booth. If for any reason you request your tent to be

moved, there will be an additional fee that would be payable at that time. Due to time

constraints we can not guarantee a time frame to move your tent or equipment. Only

employees of American shall move tents. All others will be held responsible for any

damages. We will make all attempts to contact you if we are uncertain of your set up. The

responsibility of clarity lies solely on the customer.

PLEASE LET US KNOW IF YOU HAVE ANY SPECIAL INSTRUCTIONS ON HOW YOU WANT

YOUR TENT AND/OR EQUIPMENT PLACED.
